## Work Experience

### Head of Developer Relations

☁ CloudMosa • 📍 Remote 📅 Sept 2024 - Dec 2025

- Authored, designed, and developed the Cloud Phone for Developers website
- **Published 5 open-source reference applications**, libraries, and accompanying tutorials
- Drove platform adoption via podcasts, video, guest articles, and developer talks in 4 countries
- Captured and analyzed developer signals to define product needs around platform usability
- Built and grew developer communities across Reddit, Discord, Bluesky, and X
- Prospected regional brands, resulting in **6 enterprise applications published** to the platform

### Staff Technical Program Manager

∞ Meta • 📍 Bellevue, WA 📅 Feb 2022 - Sept 2024

- Executed **company-wide data governance programs** ensuring compliance with international privacy regulations including GDPR, DMA, DSA, CCPA, and ePD
- Architected a scalable metrics framework with Privacy Data Science, **quantifying developer productivity and onboarding cost** using time-to-proficiency and time-in-motion analysis
- Led execution to integrate and scale Privacy Aware Infrastructure (PAI) across 150+ use cases in under 1 year, **mitigating €14B+ in regulatory risk**
- Automated annual compliance audits, reducing operational costs by 75% YoY

### Technical Program Manager II

📍 Amazon • 📍 Seattle, WA 📅 Apr 2020 - Jan 2022

- Unblocked Amazon Pharmacy launch by **orchestrating security certification** across 54 services, 25 teams, and 1 external vendor in a single quarter
- Reduced user-facing SEV1 volume by 60% leading critical data replication system improvements
- Drove development of Supply Chain Standards auditing tool for global compliance initiatives

### Software Development Engineer II

📍 PillPack/ Amazon Pharmacy • 📍 Boston, MA 📅 Dec 2018 - Apr 2020

- Architected sales tax calculation and reporting engine, processing 10M+ txn/month
- Refactored insurance claim adjudication service for high availability (five nines: 99.999%)

### UX Engineer

📍 MAARK • 📍 Boston, MA 📅 Aug 2017 - Dec 2018

- **Led front-end engineering team** launching redesigned John Hancock Investments website
- Developed interactive prototypes and component libraries for Marriott, Manulife, and Merck

## Skills

Cross-Functional Program Management  
Product Strategy & Roadmapping  
Technical Documentation  
Developer Relations & Advocacy  
Cloud Architecture  
Security & Privacy Compliance  
Agile Development  
Team Leadership & Mentorship  
Change Management  
Test-Driven Development  
AI-Assisted Development

## Technologies

TypeScriptJavaScript

Node.jsJavaPHP

Ruby on RailsPython

RSpecSvelte

ReactSQLREST

ViteGitPlaywright

BabelGraphQL

AWSCloudflare

DockerCI/CD

HTMLCSS

## Research Associate

🏢 Finch Therapeutics • 📍 Boston, MA

📅 Jan 2017 - Aug 2017

- Standardized GC-MS methodology for short-chain fatty acid (SCFA) analysis, improving analytical consistency and throughput by shortening run times more than 80%

## Research Assistant

🏢 UMass Biogeochemistry • 📍 Amherst, MA

📅 Sept 2014 - May 2016

- Conducted undergraduate thesis research linking fecal biomarkers to paleoclimate patterns and human habitation, presented at 2015 GSA Conference

## Software Engineer

🏢 PlanGrid • 📍 San Francisco, CA

📅 July 2012 - July 2013

- Independently developed the first version of the blueprint reader PlanGrid for Android tablets

## CSAIL Teaching Fellow

🏢 Harvard University • 📍 Cambridge, MA

📅 Sept 2011 - June 2012

- Lectured & graded for CS50 & CS75: Introduction to Computer Science and Web Development

## Software Intern

in inTouch Corp • 📍 Cambridge, MA

📅 May 2010 - Aug 2011

- Developed the TextMyFood prototype, a service for restaurants to receive orders via SMS

## Education

### University of Massachusetts Amherst

🎓 Chemistry, BS • 📍 Amherst, MA

## Projects

### Founder, PodLP

📅 2020 - Present

Built and monetized PodLP, a podcast app for flip phones surpassing **10M+ installs** across **175+ countries** generating **\$100K+ lifetime revenue**

### Android Developer

📅 2010 - 2015

Developed and published 12+ Android applications including StatusBar+, ChargeBar, and Noyze, totaling **2M+ installs** resulting in **2 successful acquisitions**

## Interests

Privacy by design  
Digital accessibility (a11y)  
Sustainable computation  
Responsible innovation  
Attention resilience
